For the Company.....

Bill paid to....., 193....

A consumer whose service has been discontinued for failure to pay bills as provided in Rule and Regulations No. 9-a may be required, before service is resumed, to re-establish his credit as provided in the preceding paragraph.

A consumer's electric service may be discontinued for non-payment of a bill for electric service rendered, provided that the bill has not been paid within 15 calendar days after presentation.

And further provided that in case a deposit to guarantee bills has been made, the service will not be discontinued until the amount of the deposit has been fully absorbed.

A consumer's electric service may be discontinued for the non-payment of a bill for electric service rendered him at a previous location served by the company, provided said bill is not paid within 30 days after presentation at the new location.

In case of a dispute between the consumer and the company as to the correct amount of any bill rendered by the company for electric service furnished to the consumer, the consumer will be notified by the company to deposit with the Railroad Commission of the State of California the amount claimed by the company to be due. Upon receipt of said deposit, the Commission will investigate the facts and communicate its findings to the parties.

Failure on the part of the consumer to make such deposit within 15 days after written notice by the company that such deposit must be made, or service may be discontinued, shall warrant the company in discontinuing the service to the consumer without further notice.

All employees of Southern California Edison Company who come in contact with the public, are selected because of their efficiency, courtesy and attention to the needs of our customers. If, at any time, you may be especially pleased with the treatment you receive, it will give us pleasure to have you inform the District Manager so that he may have the opportunity of commending the employee.
